JOURNAL OF ELECTROANALYTICAL CHEMISTRY AND INTERFACIAL ELECTROCHEMISTRY, VOLUME 227 (1987)

SUBJECT INDEX

Acetic acid,
reinvestigation of the potential dependence of the adsorption of ——— on platinum electrodes by a radiotracer method (Horányi, Rizmayer) 223

Ac voltammetry,
———: A control method for the damage to DNA caused in vitro by alkylating mutagens (Séquaris, Valenta) 11

Cadmium(II),
adsorption of a mixture of sodium dodecyl sulphate and dodecyl alcohol on a mercury electrode and its effect on the electrochemical processes of ——— in sodium chloride solution (Batina, Ćosović) 129

Carbon,
electrical double layer of ——— and graphite electrodes Part IV. Dependence of carbon electrode dimensions and electrical capacity on pH (Golub et al.) 41

Carbon monoxide,
comparative study of ——— absorbates for different structures of platinum surfaces (Santos et al.) 199

Charged interface,
on the representation of the applied field at a ——— (Nikitas) 237
On the representation of the applied field at a ———: Reply to remarks of P. Nikitas (Marshall, Conway) 245

Chlorophyll,
electrochemistry and photoelectrochemistry of ——— on a metallic electrode. Part II. Photoreaction of adsorbed chlorophyll (Khanova, Tarasevich) 115
Electrochemistry and photoelectrochemistry of ——— on a metallic electrode. Part I. Properties of chlorophyll adsorption films on metals (Khanova, Tarasevich) 99

Chronopotentiometry,
——— with non-linear perturbation functions at the DME with a preceding blank period (Molina et al.) 1

Composite polymers,
mechanism of electrodeposition of ——— including polypyrrole (Noftle, Pletcher) 229

2-Cyclopenten-1-one,
electrohydrodimerization of ——— in basic aqueous media on a mercury electrode (Bastida et al.) 55

4,4-Dimethyl-2-cyclohexen-1-one,
electrohydrodimerization of ——— in dimethylformamide on a mercury electrode (Bastida et al.) 67

DNA,
ac voltammetry: A control method for the damage to ——— caused in vitro by alkylating mutagens (Séquaris, Valenta) 11

Dodecyl alcohol,
adsorption of a mixture of sodium dodecyl sulphate and ——— on a mercury electrode and its effect on the electrochemical processes of cadmium(II) in sodium chloride solution (Batina, Ćosović) 129

Electrical double layer,
——— of carbon and graphite electrodes Part IV. Dependence of carbon electrode dimensions and electrical capacity on pH (Golub et al.) 41

Electrohydrodimerization,
——— of 2-cyclopenten-1-one in basic aqueous media on a mercury electrode (Bastida et al.) 55
——— of 4,4-dimethyl-2-cyclohexen-1-one in dimethylformamide on a mercury electrode (Bastida et al.) 67

Electrolyte dropping electrode,
role of non-ionic polyoxyethylene surfactants on ion transfer across aqueous/organic solution interfaces studied by polarography with the ——— (Yoshida, Kihara) 171

Graphite,
electrical double layer of carbon and ——— electrodes Part IV. Dependence of carbon electrode dimensions and electrical capacity on pH (Golub et al.) 41

Heteropolyacids,
new aspects of the electrochemistry of ———. Part IV. Acidity dependent cyclic voltammetric behaviour of phosphotungstic and silicotungstic heteropolyanions in water and *N*,*N*-dimethylformamide (Keita, Nadjo) 77
Heteropolyanions,
electrocatalysis by electrodeposited ——— and isopolyanions (Keita, Nadjo) 265
Hydrogen,
kinetics and mechanism of ——— and OH electrosorption on faceted (100) Pt electrodes in acid solutions (Bilmes et al.) 183
Hydroxyl,
kinetics and mechanism of H and ——— electrosorption on faceted (100) Pt electrodes in acid solutions (Bilmes et al.) 183

Interface between two immiscible electrolyte solutions,
adsorption of phospholipids at the ——— (Wandlowski et al.) 281
Isopolyanions,
electrocatalysis by electrodeposited heteropolyanions and ——— (Keita, Nadjo) 265

Limiting diffusion current,
frequency response of the ——— to a magnetic field perturbation (Olivier et al.) 275

Magnetic field perturbation,
frequency response of the limiting diffusion current to a ——— (Olivier et al.) 275
Mercurous oxalate,
multiple layer formation in the anodic deposition of ——— (Müller et al.) 147
Mercury,
adsorption of a mixture of sodium dodecyl sulphate and dodecyl alcohol on a ——— electrode and its effect on the electrochemical processes of cadmium(II) in sodium chloride solution (Batina, Ćosović) 129
Electrohydrodimerization of 2-cyclopenten-1-one in basic aqueous media on a ——— electrode (Bastida et al.) 55
Electrohydrodimerization of 4,4-dimethyl-2-cyclohexen-1-one in dimethylformamide in a ——— electrode (Bastida et al.) 67
Novel oxidation processes for the methyltin compounds $(CH_3)_4Sn$, $(CH_3)_3SnCl$, $(CH_3)_2SnCl_2$ and CH_3SnCl_3 at ——— electrodes in dichloromethane (Bond, McLachlan) 29
Methyltin compounds,
novel oxidation processes for the ——— $(CH_3)_4Sn$, $(CH_3)_3SnCl$, $(CH_3)_2SnCl_2$ and CH_3SnCl_3 at mercury electrodes in dichloromethane (Bond, McLachlan) 29
Microporous glass films,
——— as support media for electroactive films on electrodes (Lundgren, Murray) 287
Multiple layer formation,
——— in the anodic deposition of $Hg_2C_2O_4$ (Müller et al.) 147
Mutagens,
ac voltammetry: A control method for the damage to DNA caused in vitro by alkylating ——— (Séquaris, Valenta) 11

Nickel,
photoelectrochemical characteristics of metal-modified epitaxial n-Si anodes. Part I. NiO(OH)-coated n^+/p-Si and n^+/n-Si electrodes for catalytic oxygen evolution (Guozheng Li, Shixun Wang) 213
Non-linear perturbation functions,
chronopotentiometry with ——— at the DME with a preceding blank period (Molina et al.) 1

Oxygen,
photoelectrochemical characteristics of metal-modified epitaxial n-Si anodes. Part I. NiO(OH)-coated n^+/p-Si and n^+/n-Si electrodes for catalytic ——— evolution (Guozheng Li, Shixun Wang) 213

Phospholipids,
adsorption of ——— at the interface between two immiscible electrolyte solutions (Wandlowski et al.) 281

Phosphotungstic heteropolyanions,
new aspects of the electrochemistry of heteropolyacids. Part IV. Acidity dependent cyclic voltammetric behaviour of ——— and silicotungstic heteropolyanions in water and *N*,*N*-dimethylformamide (Keita, Nadjo) 77
Photochargeable device,
a ——— composed of bilayer membranes of poly(3-methylthiophene) and Prussian Blue (Kaneko et al.) 255
Platinum,
comparative study of CO absorbates for different structures of ——— surfaces (Santos et al.) 199
Kinetics and mechanism of H and OH electrosorption on faceted (100) ——— electrodes in acid solutions (Bilmes et al.) 183
Reinvestigation of the potential dependence of the adsorption of acetic acid on ——— electrodes by a radiotracer method (Horányi, Rizmayer) 223
Poly(3-methylthiophene),
a photochargeable device composed of bilayer membranes of ——— and Prussian Blue (Kaneko et al.) 255
Polyoxyethylene,
role of non-ionic ——— surfactants on ion transfer across aqueous/organic solution interfaces studied by polarography with the electrolyte dropping electrode (Yoshida, Kihara) 171
Polypyrrole,
mechanism of electrodeposition of composite polymers including ——— (Noftle, Pletcher) 229
Prussian Blue,
a photochargeable device composed of bilayer membranes of poly(3-methylthiophene) and ——— (Kaneko et al.) 255

Raman spectroscopy,
——— investigation of the silver oxide/silver electrode. Influence of experimental conditions (Temperini et al.) 21
Rhodium,
electrochemistry of the ordered ——— (111) electrode. Surface preparation and voltammetry in $HClO_4$ electrolyte (Hourani, Wieckowski) 259

Silicon,
photoelectrochemical characteristics of metal-modified epitaxial n-Si anodes. Part I. NiO(OH)-coated n^+/p-Si and n^+/n-Si electrodes for catalytic oxygen evolution (Guozheng Li, Shixun Wang) 213
Silicotungstic heteropolyanions,
new aspects of the electrochemistry of heteropolyacids. Part IV. Acidity dependent cyclic voltammetric behaviour of phosphotungstic and ——— in water and *N*,*N*-dimethylformamide (Keita, Nadjo) 77
Silver,
complexation and adsorption of thiourea in sulphate medium on electrochemically roughened ——— electrodes (El Hajbi et al.) 159
Raman spectroscopy investigation of the ——— oxide/silver electrode. Influence of experimental conditions (Temperini et al.) 21
Sodium dodecyl sulphate,
adsorption of a mixture of ——— and dodecyl alcohol on a mercury electrode and its effect on the electrochemical processes of cadmium(II) in sodium chloride solution (Batina, Ćosović) 129
Submicrodisc electrode,
current distribution at a ——— (Penczek, Stojek) 271

Thiourea,
complexation and adsorption of ——— in sulphate medium on electrochemically roughened silver electrodes (El Hajbi et al.) 159
